It is said that Hill is likely to make trouble in the convention, but just how is not apparent at present. It is believed that New York State will have to give him some recognit on, possibly a place on the Committee on Resolutions. It is known that he wants this position, and if some other man is selected it would be a great disappointment for Hill. It is doubtful, it is sa'd, if Tammany cares to go that far. If placed on the Resolutions Committee, it is feared that Hill will have an opportunity to cause trouble. ### PERRY HEATH FORCED TO QUIT OFFICE BECAUSE OF CUBAN FRAUDS

WASHINGTON, June 27 .- First Assistant Postmaster General Perry S. Heath

has tendered his resignation, or will co so in a few days. This information is based on the best authority. It is understood that the Ostensibly he is to retire from office to assume his former duties in connection with the literary bureau of the Republican National Committee. It is considered that the present time, just prior to the opening of the campaign headquarters, offers an opportunity for him to gracefully sever his connection with the Admin-

As a matter of fact, Mr. Heath's retirement from the office to which he was appointed at the beginning of President McKinley's term is the result of public sentiment aroused by the Cuban scandals. Even previous to the disclosures of official crookedness in Cuba, on the part of the men appointed through Peath's influence, the First Assistant Postmaster General was an embarrassment to the Admin'stration. The Cuban scandals were the culmination of it. In the first place it was developed, incidentally to the d'sclosures of favoritism on the part of the Treasury Department toward the National City Bank of New York, that the Seventh National Bank of New York, of which Fletcher Heath, a brother of the Assistant Postmaster Ge eral, is president and in which Perry S. Heath was a stockholder, had been ma e the Government depository for the many

millions of the United States Postoffice Department. This matter had not ceased to be made a matter of comment when the Necly defalcation of the Cuban postal funds was unearthed. Neely was the a pointce of Heath and had been associated with him in business affairs at Muncle, Ind. Dtrector of the Posts Rathbone and Auditor Reeves, of the Cuban Pestal Bureau, both of whom figured unpleasantly in the subsequent disclosures, were also

Heath-Hanna appointees. Then followed the exposure relative to the North American Trust Company and the Cuban postal frauds. Fletcher Heath, it was discovered, was one of the directors of the trust company, and shortly after he was made a director of the

Cuban postal system began depositing with the trust company. Altogether it was made plain that the Heath family were not over ooking any opportunity to profit by the handling of Government funds, which handling de-

pended on official favor. WASHINGTON, June 28 .- The story that Perry S. Heath, First Assistant Postmaster General, will resign and permanently sever his connection with the Government service, is revived with some show of foundation. This time it is said he will tender his resignation about July 10th. The Republican National Committee has been at a loss to find a manager for its literary bureau, the place so ably filled by Heath four years ago, and Chairman Hanna has been anxious to secure the services of heath again for this campaign. When the Bureau becan work this year Heath was at its head for a short time. Then there was a s'atemert from the Democrats in Congress that the civil service laws were beog vieleten and it was thought best for Heath to retire, much to the regret of the members of the National Committee. So necessary up his services seem now, however, toat it is believed he may be irduced to leave the Covernment

employ and again take charge of the campaign literature for the Re-mblicans. The Democrats are improving this possibility to assert that Heath has been driven out of the service as a sort of vicarious atchement because of the Cuban postal frauds and his connection with the appointment of Neely. There is no foundation for such a charge.
